About the AACP Curriculum Quality Surveys

The Graduating Student, Alumni, Preceptor, and Faculty surveys were first released in 2007. These surveys were based on the Accreditation Council of Pharmacy Education’s (ACPE) 2007 Standards with the intention of gathering continuous improvement data for the colleges and schools of pharmacy.

In spring 2015, the AACP Institutional Research and Assessment Committee (IRAC), AACP staff, and ACPE staff revised these curriculum quality perception surveys to accommodate changes with the release of ACPE’s 2016 Standards. In 2018, IRAC decided to move the demographic questions on three of the curriculum quality surveys (Graduating Student, Preceptor, and Alumni) to the end of the survey instrument. The Faculty demographic question section was already at the end of the survey instrument.

In 2021, IRAC decided to expand the demographic questions to include additional questions on race, ethnicity, English language proficiency, and first-generation student status. For the Alumni and Preceptor Surveys, the section containing these expanded demographic questions was made optional. The 2022 results reflect the first administration of these revised surveys.

2022 Administration

The Alumni Survey was made available for online access in the AACP Survey System on May 2, 2022. As of September 2022, 68 colleges and schools of pharmacy administered the survey to their 2017 – 2021 alumni classes. A total of 24,728 alumni were invited to complete the survey. Two thousand, and fifty-one (2,051) alumni submitted the survey for a total response rate of over eight percent (8.3%). Response rates per school ranged from .2 percent to 30.2 percent. For more information regarding this summary report or the administration of the survey, please contact the Office of Institutional Research and Effectiveness (data@aacp.org).

2022 Highlights

Overall, alumni surveyed in 2022 reported positive perceptions of their college/school of pharmacy and the profession. The statements with the highest overall level of agreement and disagreement are highlighted below.
