The Pharmacy School Budget:

Revenues, Expenditures, and Key Financial Questions

The following infographic presents data on pharmacy school revenues, expenditures, and key financial questions as reported by the 93 colleges/schools of pharmacy at full enrollment that completed AACP's 2012–13 Financial Survey. Only colleges/schools of pharmacy with enrollments in all four professional years (three years for accelerated programs) are included.

Revenue and expenditure subcategories were aggregated across all reporting institutions to determine the main sources of income and expenditures. This infographic demonstrates the overall financial status and health of these institutions and provides some key comparisons between public and private institutions.

Report Highlights:

Public Institutions, 2012–13

Main source of revenues: Research Revenues

Overall, pharmacy schools were financially healthy in 2012–13. Private institutions reported a mean resource-expenditure balance of \$9,247,483 and public institutions' mean balance was \$7,787,601.

Main source of expenditures: Non-Capital

\$7,787,601

\$9,247,483

Private Institutions, 2012–13

Main source of revenues: Tuition & College Fees

Main source of expenditures: Regular Faculty Salary

Revenue Category	Total
